After 4 years of teaching and one of travel I am looking for a new career where I can better use my problem-solving skills and affinity technical understand. Throughout my degree I found the experience of solving problems with code and computation to be one of the most rewarding aspects of study. I would now like to return to that passion and develop my understanding and ability further, working for a company that will grow and enhance my potential. I am always excited to tackle new problems and I am flexible to the changing situations of a busy work environment.

Education

PGCE with QTS, Goldsmiths, University of London **2016**

Msci Physics with Theoretical Physics, The University of Nottingham – 2:1 **2014**

2 A Levels in Media and Physics, Haberdashers' Aske's Hatcham College Sixth Form **2007**

8 GCSEs including English and Maths. Haberdashers' Aske's Hatcham College School **2004**

Core proficiencies

Technical

- Familiarity with object orientated programming and various coding languages including Python, C# and MATLAB, demonstrated in masters and self-learnt coding exercises.
- Excellent science knowledge. Expert in physics and maths
- IT proficient in broad swath of other ways with experience building and fixing hardware, setting up home networks, fixing software problems for others etc.

Problem Solving

- Capable of viewing problems in abstract terms to allow for more creative problem solving and the finding of multiple solutions.
- I discuss challenges to discover and share alternate answers and further broaden my repertoire of skills.
- Experienced at researching and implementing solutions to new problems (technical and otherwise).

Organisation

- Experienced at planning work and planned progress months ahead, whilst being adaptable to changing circumstances of individual classes and intersecting organisation changes.
- Well-practised at organising time for the many tasks in a busy teacher schedule.

Communication

- Experienced presenting topic overviews to colleagues and lessons to classes
- Clear and capable verbal communicator and a good accurate listener. Essential skills used in classroom teaching and with colleagues.
- Capable written communicator with extensive experience writing scientific reports, student reports communicating with parents of students etc.

Interests and activities

In my free time I enjoy rock-climbing, cycling and make and record a podcast. I am also an avid reader, enjoy travel and the opportunity to make new friends.
